

Controller

```
graph BT; StaffUserLogController[StaffUserLogController] --> BaseController[BaseController]; BaseController --> Controller[Controller];
```

A UML class diagram illustrating inheritance. At the bottom is the 'StaffUserLogController' class, represented by a gray-filled rectangle. A blue arrow points upwards from 'StaffUserLogController' to the 'BaseController' class, which is a white rectangle with a black border. Another blue arrow points upwards from 'BaseController' to the 'Controller' class at the top, which is also a white rectangle with a black border.

BaseController

StaffUserLogController
